## Quizzes on social networks

I've got a profile on Facebook. I am absolutely overwhelmed by the massive use of quizzes. It is everything from weird personality quizzes to Iq-quizzes.

After seeing this; I am quite confident, that there will always be room for a quiz and trivia resources page.

Only problem - I may spend all my spare time doing quizzes on Facebook instead of developing new stuff for this site:lol:

I've never used Facebook, I use Myspace but I know what you mean. Those personality quizzes (I think they're actually called surveys) are a little secret addiction of mine.

Granted you don't learn anything valuable, other than concluding that Thursday is your favorite day of the week.
