A new quiz website starting up. You can submit your own questions/answers, as well as take the pre-prepared tests:

<http://www.spenglr.com/>

We're new, so any feedback is much appreciated!

Great, mafitzpatrick. Your site is a good idea! I like the flexibility in it. There is definitely room on the web for useful, entertaining quiz sites. There is perhaps one other site that one could visit, particularly if one feels like spending extra time on 'going deeper' into any of the answers. That site is new too. It's <http://TriviaTrips.com>

I have been writing a weekly quiz for over 2 years and have a database of past quizzes if anyone can make use of them, perhaps on a 'swap basis' should you also have an archive

Cheers
